EDUCATION

Syracuse University, New York, USA

Masters in Computer Science

CGPA: 3.5/4

Aug 2024 – May 2026

University of Mumbai, Mumbai, India

Bachelor of Engineering in Information Technology

CGPA: 9.3/10

Aug 2018 – Jul 2022

WORK EXPERIENCE

Adobe - Digital Experience Platform

Software Developer Intern | AI Agent, MCP, LLM Orchestration

San Jose, CA, USA

May 2025 – Present

- Developed an AI agent using Model Context Protocol, connecting internal tools via a chat interface, reducing developer query resolution time by 60%.
- Implemented a multi-agent orchestration framework managing 5 agent types, enabling execution of multiple distinct task flows across agents.
- Integrated 300+ tools into a vector store and implemented context-aware tool selection, improving task routing accuracy by 80%.

Tata Consultancy Services Ltd. - Advance Drug Development Platform

AI Developer | Machine Learning, Design patterns, Computer Vision

Mumbai, India

Jan 2023 – Jul 2024

- Constructed Gen-AI pipeline for Medical Copilot using RAG technique, integrating Large Language Model using LangChain, automating 70% of tasks, reducing study building time by 80%.
- Streamlined Data Redaction in patient narrative documents with Azure ML, achieving 95% redaction accuracy and 90% reduction in manual tasks.

System Engineer | REST API, Backend development, Natural Language Generation, Agile

Jun 2022 – Dec 2022

- Created Image redaction service for patient biometric information (eyes & signature) in narrative documents using python OpenCV and CNN, with 92% accuracy.
- Engineered extractive summarizing service using transformer model to compress protocol documents by 80%, retaining 94% accuracy of medical data.

PROJECTS

Fast Tolling System | Java Spring boot, MongoDB, Deep Learning, GCP

Nov 2021 – Jan 2022

- Built a Tolling software deploying microservice architecture in a hackathon, utilizing Computer Vision with Yolo-v4 tiny and DeepSort algorithm for vehicle tracking, saving 90% time than RFID-based FASTag system.

Online Project Exhibition Portal | Django, OAuth, AWS EC2, Version Control

Apr 2021 – May 2021

- Developed a platform for displaying projects of Final Year students at DBIT during the covid times.
- This is a highly scalable platform with features like OAuth, Role Based Access and Voting System.

Smart Door lock System | Python, Computer Vision, NLP, Azure cloud, JSON

Jun 2020 – Aug 2020

- Built a smart door lock system with one-shot facial recognition using a Siamese network, achieving a 90% accuracy rate and effectively mitigating false positives.

HONORS AND AWARDS

- Achieved 1st position among the top 15 teams in the Finals of the Smart India Hackathon 2022, a national-level hackathon organized by the Government of India, with over 15,000+ student participants.
- Acknowledged among the top 8 finalist out of 1000+ participants in Deep Blue Hackathon 2021, organized by Mastek.
- Awarded with TCS Contextual Masters and Special Initiative award for notable contributions and achievements.

TECHNICAL SKILLS

Languages: C#, C, C++, Java, Python, Ajax, HTML/CSS, JavaScript, TypeScript, SQL, NoSQL (MongoDB)

Frameworks: Django, LangChain, Flask, Node.js, React, Angular, Android studios, React native

Developer Tools: Git, GitHub, Kubernetes, Docker, Jenkins, GCP, Redis, Visual Studio, Selenium, Kafka

Libraries: TensorFlow, Keras, PyTorch, Pandas, Scikit learn, Seaborn, NumPy, Matplotlib

Core Skills: Data Structures, Attention to detail, Communication, Accountability, Troubleshooting, Collaboration
